

## I Have a Family Tree, CS 199

Many of us are having family reunions during these warm summer months. This song would be lots of fun to sing at a family reunion. It has a perky beat and lends itself so well to actions. Here's how I usually do it:

### Verse 1

I have a fam'ly tree (arms straight up)

With branches by the dozens (wave arms out to the sides and wiggle fingers).

I have grandpas, I have grandmas (use one hand to count with your fingers on the other hand).

I have uncles, aunts and cousins (continue counting on your fingers till you have counted out the 5 different groups).

### Verse 2

When it's reunion time (point to watch or calendar), No matter what the weather (wiggle fingers down, top to bottom, indicating rain),

It is such a happy day (put both pointer fingers at the middle of your lips and draw up and outward to indicate a smile – as you smile)

When the family (reach arms out to the sides) gets together (draw arms together in a big embrace).
